SAP BASELINE ACTIVATION

Rapid implementation services for:
S/4 HANA CLOUD

SAP Baseline Activation Service

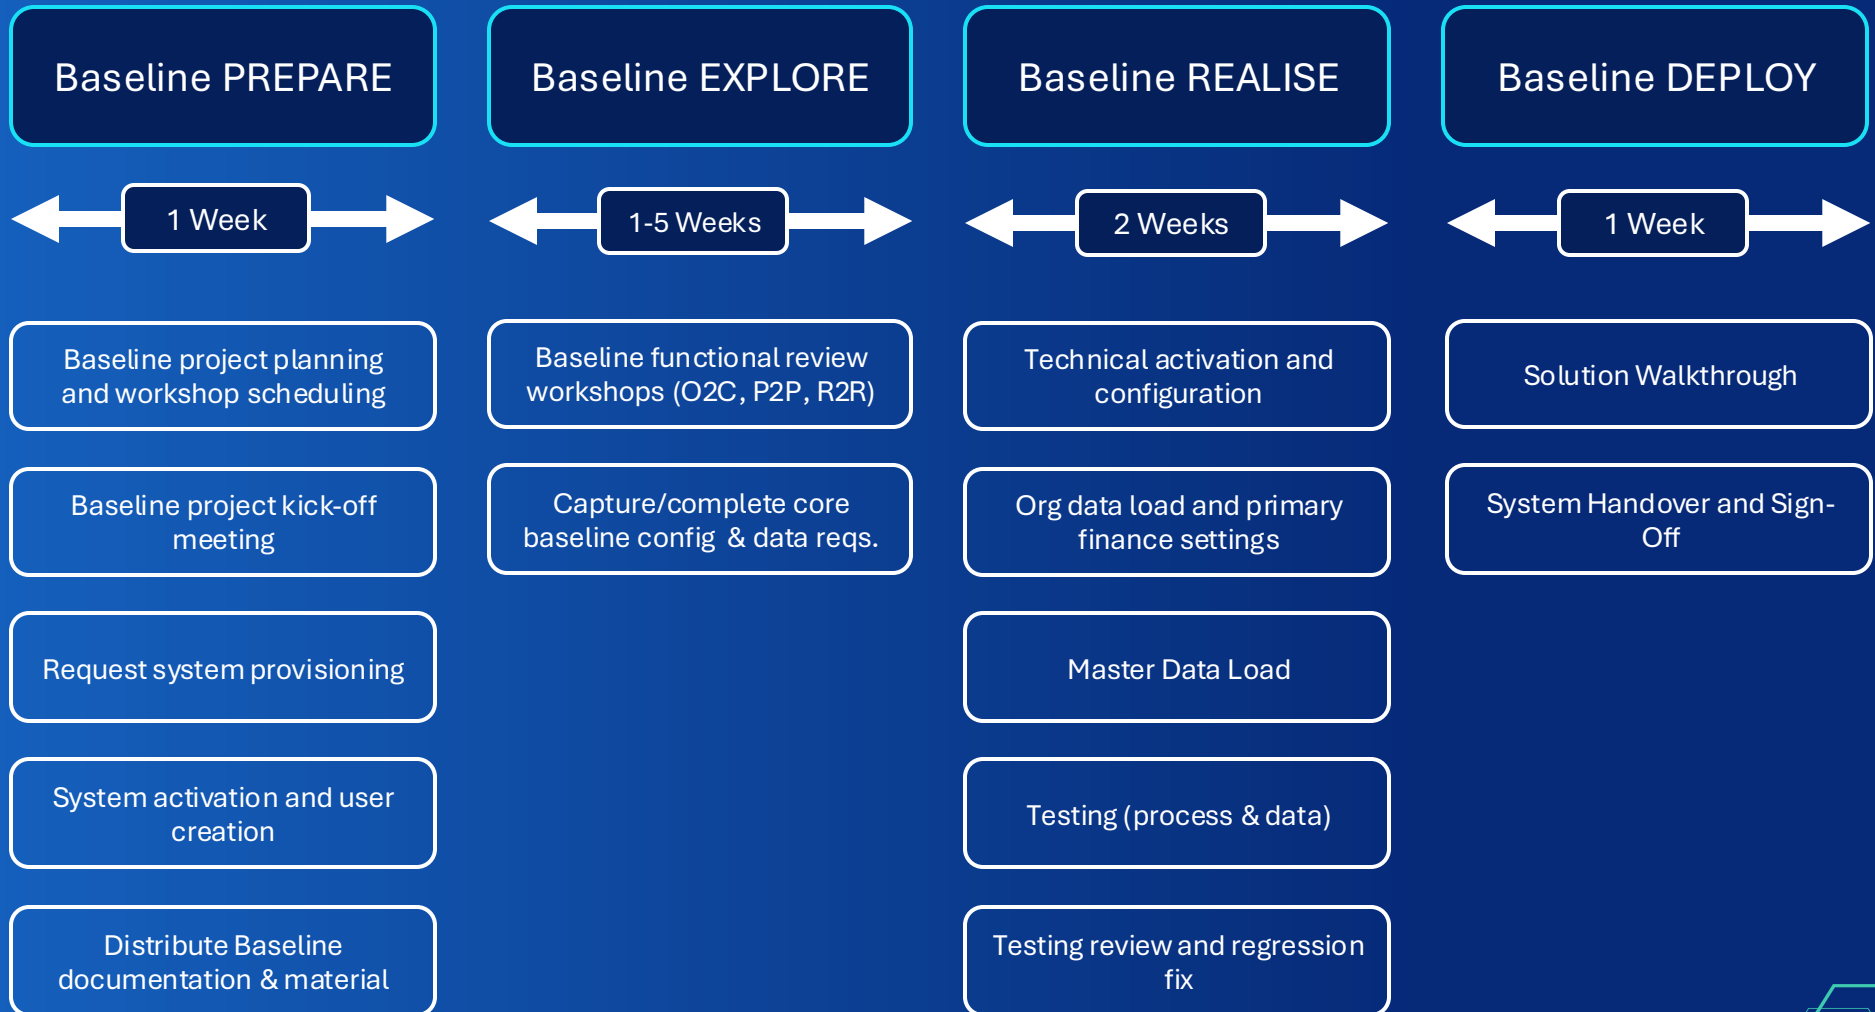

Purpose: To set up basic functionalities tailored for core business processes like finance, procurement, and sales.

Process:

- **Preparation:** Aligning project objectives and details.
- **Exploration:** Running workshops to understand SAP's best practices and figuring out the necessary configurations and data.
- **Realisation:** Configuring the system, loading the data and making sure everything works as expected.
- **Deployment:** Showing the configured system to demonstrate what has been set up.

Features:

- Designed to be fast, predictable and focused (usually set up within 4 to 12 weeks).
- The service includes access to SAP's best practices and uses templates and predefined data to enhance engagement and understanding.
- Workshops and a final demonstration (Solution Walkthrough) helps to ensure everyone understands the system and its setup.
